

ST. MARY'S HEALTH CLINICS

Providing health care services at no cost to low income, uninsured individuals and families in our communities.

A BRIEF DESCRIPTION OF ST. MARY'S HEALTH CLINICS

St. Mary's Health Clinics, a ministry of the Sisters of St. Joseph of Carondelet, provide free health care services to many uninsured persons. Services provided by St. Mary's Health Clinics include the patient's visit to the clinic, lab tests, xrays, diagnostic tests, and most medications. Specialty referrals are provided to the patient without charge through coordinated efforts with area health care providers. Patients who are eligible, are assisted with applications for Minnesota Health Care Programs such as MinnesotaCare or Medical Assistance.

Our clinics are staffed by licensed physicians and nurses, as well as admissions personnel and interpreters who volunteer their time to work in our clinics. St. Mary's Health Clinics strives to make health care easily accessible to those in need by locating clinics in neighborhoods throughout the metro area and pride ourselves on the special attention we are able to give patients who come to the clinics.

To be eligible for care through St. Mary's Health Clinics a patient must be without health insurance, and cannot be receiving assistance from any government subsidy program such as Medicare, Medical Assistance, or MinnesotaCare. St. Mary's Health Clinics cannot provide care for some diagnoses.

St. Mary's Health Clinics

provide

FREE HEALTH CARE

to those people who do **not** have:

- Health Insurance
- Medical Assistance (MA)
- Medicare
- MinnesotaCare

(Prenatal, mental health, and dental services are not available and emergency trauma or critical care cannot be provided. St. Mary's Health Clinics cannot provide care for complicated, multiple chronic conditions.)
